

Bridge traditional and modern finance with **SIDE** Securities Industry Data Exchange

SIDE is a Market Infrastructure platform developed by securities industry experts to deliver business-first technology innovation in a non-disruptive manner – “Evolution, not Revolution”

SIDEchain™

SIDEchain was launched in 2018 with a global investment bank to achieve the following benefits.

- ✓ **Increase Client Satisfaction** – Brokers provide a single digital reporting channel to their clients
- ✓ **Better Compliance** - Eliminate email/paper with guaranteed delivery and electronic audit trail
- ✓ **Lower Costs** – for Brokers and their clients and FA/Custodians
- ✓ **Single Source of Truth** – All information is immutable via cryptographic consensus & audit
- ✓ **Unprecedented Security** – Every record is digitally signed and encrypted with all access rights managed by the stakeholders
- ✓ **Industry Solution** – Since inception, product offerings are driven by industry thought leaders (Community based model)

Brokers and buy-side clients onboard their users in minutes to access **legal trade confirms**

Single Source of Truth, Broker confirms are posted to the SIDEchain Ledger via API, then digitally signed and encrypted for secure client access (web portal via API).

Since coming onSIDE, a major bank-owned dealer has reduced carbon footprint, significantly lowered costs, and have increased satisfaction for hundreds of buy-side clients.
